

Culvert Replacement on Route 20

On April 15th, 2024, the New York State Department of Transportation Region One and Rifenburg Construction will begin the replacement of a large culvert on US-20. The culvert is located on US-20 between the intersections of NY-7 and Duanesburg Churches Rd. It is anticipated that construction will be completed by May 31st, 2024. To complete this work safely and as quickly as possible, US-20 will be closed at the project site. Detour routes will use NY-395 and NY-7. During construction, all properties in the area will remain accessible to residents and emergency responders.

The following map shows the location of the culvert repair.
